INDEPENDENT ACCOUNTANT'S REPORT
ON APPLYING AGREED-UPON PROCEDURES

Audit Committee of the Board of Directors
LSU Foundation
Baton Rouge, Louisiana

We have performed the procedures enumerated below, which were agreed to by the Legislative Auditor of Louisiana, solely to assist you with respect to the accounting records of the LSU Foundation (the Foundation) for the year ended June 30, 2006. Management is responsible for the accounting records. This engagement to apply agreed-upon procedures was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are as follows:

Verified the Foundation's endowments for the Eminent Scholars Endowed Chairs Program and the Endowed Professorship Program have been managed in compliance with provisions set forth in the Board of Regents Statement of Investment Policy and Objectives.

No exceptions noted as a result of the above procedure.

Verified that the annual financial reports for the Eminent Scholars Endowed Chairs Program and the Endowed Professorship Program submitted to the Board of Regents were mathematically accurate and agreed to the accounting records of the Foundation. A listing of all the chairs and professorships is attached. (See Exhibit A)

While testing the accuracy of the reports submitted on September 29, 2006 to the Board of Regents, we noted several programming errors which resulted in approximately 85% of the reports submitted to contain at least one error. These errors included incorrect amounts reported for interest earned, realized and unrealized capital gain/loss, inflation amount, inflation adjusted baseline, and actual allocation amount for actual spending for the fiscal years ending June 30, 2005 and 2006. Due to these errors other calculated line items were also affected. These programming errors have been corrected by the Foundation. New reports were generated and provided to us for our review. We were able to review the revised reports and were able to verify without exception that these reports for the Eminent Scholars Endowed Chairs Program and Endowed Professorship Program are mathematically accurate and agreed to the accounting records of the Foundation. The Foundation has represented to us that they intend to submit the revised reports to the Board of Regents.

~~Verified the Foundation has developed a spending plan for endowment earnings which is in compliance with Board of Regents guidelines.~~

No exceptions noted as a result of the above procedure.

Verified, in the sample selected for testing, the proceeds of the endowments for the Eminent Scholars Endowed Chairs Program and the Endowed Professorship Program were used as salaries or as a supplement for salaries or for other expenses related to scholarly work for eligible faculty members.

No exceptions noted as a result of the above procedure.

Verified the Foundation complied with all provisions of the Management Agreement with the University.

No exceptions noted as a result of the above procedure.

Verified investment earnings generated from pooled assets involving endowed chair or professorship money have been properly allocated to the chairs and professorships in accordance with the Louisiana Board of Regents Statement of Investment Policy and Objectives.

No exceptions noted as a result of the above procedure.

Verified the value of the state funds held by the Foundation as reported in its audited financial statements is equal to the amount recorded in the University's books.

No exceptions noted as a result of the above procedure.

Verified there is no regulatory oversight for the investment pool and that the fair value of the position in the pool is the same as the value of the pool shares.

No exceptions noted as a result of the above procedure.

The audited book balance (cost) at June 30, 2006 and 2005 of the Louisiana State University investments held by the Foundation was \$55,366,236 and \$48,566,395, respectively.

The audited fair value at June 30, 2006 and 2005 of the Louisiana State University investments held by the Foundation was \$53,534,796 and \$49,253,232, respectively.

Based on an internal listing provided by the Foundation, and verified by confirming 100% of the Foundation's investments, the following is a description of the types of investments allocated to Louisiana State University funds held by the Foundation: fixed income investments; collateralized mortgage obligations; pass-through mortgage pools; corporate bonds; and cash management accounts.

Sources used to determine fair market value of investments include monthly investment statements prepared by an external global securities custodian, monthly review of fair market value information by an external investment consultant and periodic internal review and comparison of fair market value information against external published sources.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on the specified elements. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of the Foundation, the LSU System, the Legislative Auditor and the Board of Supervisors, and should not be used by anyone other than these specified parties.
